

Huron Park Public School - Suggested School Supply List

September 2015

Every year students prepare to head back to school with a sense of anticipation and excitement. The “back to school” shopping experience can be overwhelming. Huron Park supplies all materials necessary for student learning including a student agenda, but it is exciting for students to have their own materials as they begin back to school.

To make this process easier, our staff has created a recommended list to assist parents/guardians with determining what supplies to purchase so money is not being needlessly spent on items that will not be used at school. This is only a suggested list.

***All students need a large knapsack for carrying books, as well as indoor running school, etc.**

Kindergarten
